

### EFFECTIVENESS PROVEN SCIENTIFICALLY:

Studies conducted in vivo on a sample of 20 women between the ages of 30 and 65 who have been asked to apply a product of their choice from the Probiotic Complex Line and to compare it with a similar product on the market.

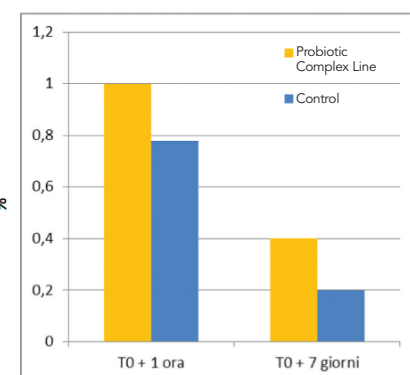

#### MOISTURIZE

Measurements by Tewameter (TEWL meter - index of transepithelial water loss) and Corneometer (measuring the skin water content) showing that Probiotic Complex products not only improve the hydration of the skin but also reduce the water loss.

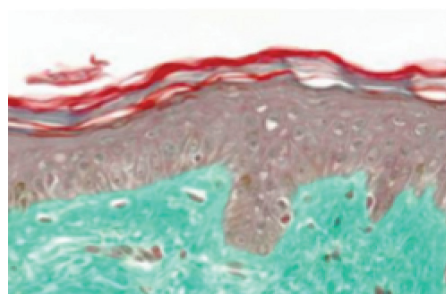

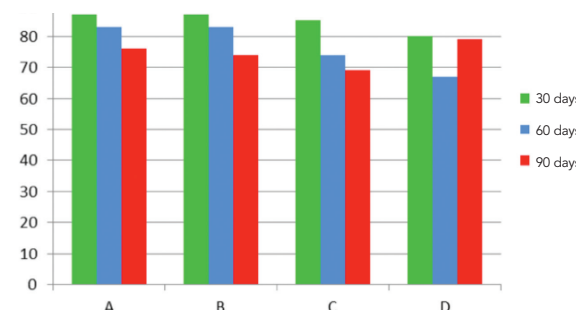

#### ILLUMINATE

Measurements performed by means of the colorimeter show that already after one hour from the skin appears brighter; the effect remains higher than the control even in the following 7 days of application.

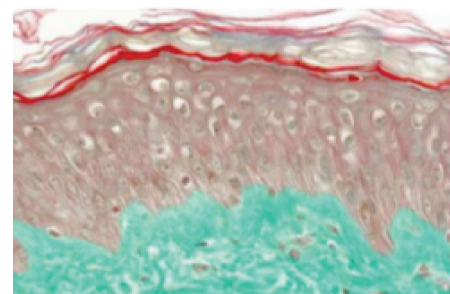

#### ANTI AGING

The products of the Probiotic Complex Line act:  
A – improving skin hydration;  
B – making the skin softer;  
C – giving relief to the most reactive skins;  
D – nourishing the skin.

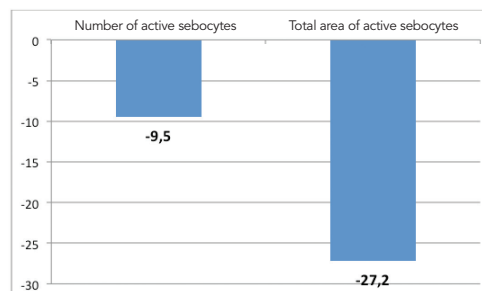

CONTROL

ACTIVE PROBIOTIC

The products of the Probiotic Complex Line contain the innovative oat extract fermented ad high concentrations that acts by enhancing the cutaneous bacterial flora and favouring the growth in thickness of the epidermis and stratification, synonymous with a good state of health of the same.

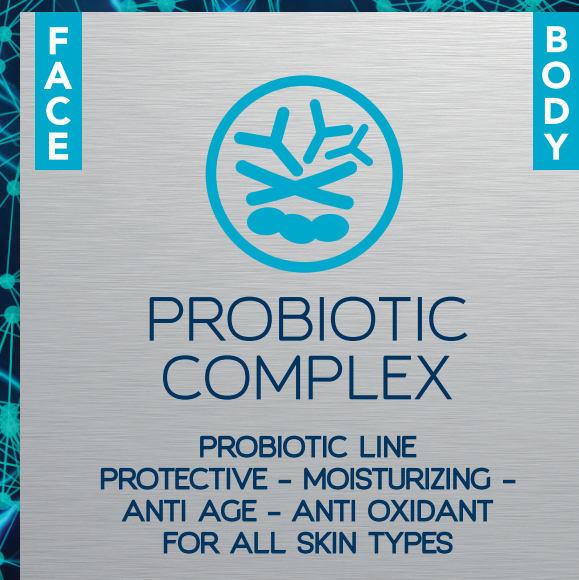

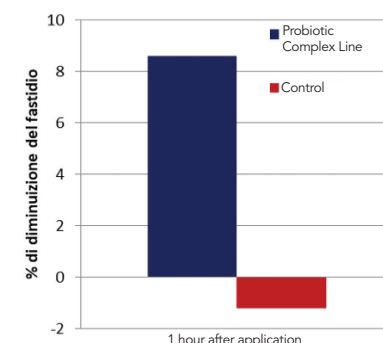

#### PURIFY

The Probiotic Complex Line reduces the number of follicles and the total surface of active follicle after 28 days, which is related to a minor sebum production.

#### SOOTHE

The Probiotic Complex Line works by decreasing by a factor of 8,6% the discomfort and redness of the skin after a hour of application.

BODY

### PROBIOTIC LINE

PROTECTIVE - MOISTURIZING - ANTI AGE - ANTI OXIDANT FOR ALL SKIN TYPES

The human body is populated by innumerable bacteria (which affect up to 3% on body weight), including a high number of “good bacteria” that coexist with our body without damaging it. **This set of microorganisms is defined Microbiota.** Our skin also welcomes many communities of bacteria, over 500 species: the Cutaneous Microbiota, a precious system of protection that contributes to our immune defense. The good bacteria that animate the surface, create positive relationships that allow it to protect itself from external aggressions or redness and to keep healthy and vital.

Naturally predisposed to believe that the bacteria are all bad we often use aggressive cosmetics and with a strong cleansing action to deep clean the skin. The beauty of our skin, however, is closely linked to the balance of microorganisms that populate it, which are a first line of defense against external threat. **If the bacterial ecosystem is balanced and diversified, the skin remains healthy.** A reduced diversity in the composition of the bacterial flora, caused by external and internal factors, can increase the reactivity and sensitivity of the epidermis, causing even pathological conditions (dermatitis, acne, rosacea, etc).

**The new innovations in cosmetics is therefore the use of ingredients that protect the community of good bacteria and the cutaneous microbiota.** This type of approach opens the way for the use of new ingredients such as Prebiotics. And this is where our new line Probiotic Complex is born, a self-care line based on a prebiotic complex deriving from the fermentation of the Colloidal Oats that **has a synergistic effect, inhibiting the growth of pathogenic bacteria and increasing beneficial organisms (good bacteria), to favor in a sweet way, the development of this CUTANEOUS MICROBIOMA.**

### BIFASIC MICELLAR WATER

MAKE-UP REMOVER WITHOUT RINSING FOR ALL SKIN TYPES

COD. 51190\_ML 200

It is an innovative product that combines the enveloping sensoriality of an oil with the effectiveness of a micellar make-up remover that quickly eliminates any type of make up, even waterproof. With active Prebiotics that help soothe stressed skin and fight the attack of bad bacteria, ensures in a single simple gesture: deep cleansing, toning and immediate comfort, a moisturizing, revitalizing, antioxidant and anti-free radical action.

With Active Prebiotics, Natural Extract of Cocoa, Micelles

### PROBIOTIC CREAM

ANTIOXIDANT - HYDRATING - OPACIFYING + UVB FILTER

COD. 51191\_ML 50

With its powerful antioxidant, opaque and super moisturizing action, it is a real cosmetic treatment formulated with the latest generation ingredients, natural and compatible. Formulated with Coenzyme Q10, active marine extracts, cocoa and sweet almond oil, it slows down the process of wrinkles formation. The Prebiotic actives also perform a protective function, favoring the regeneration of the skin and helping to counteract the proliferation of pathogenic bacteria.

With Active Prebiotics, Coenzyme Q10, Active Marine Extracts, Cocoa and Sweet Almond Oil

### PROBIOTIC FACE SERUM

PROTECTIVE - ANTI-WRINKLE - ILLUMINATING

COD. 51192\_ML 30

A very light, extremely concentrated product that allows the high concentration of active ingredients such as Grape Stem Cells, Active Marine extracts, African Kigelia and Prebiotics interacting with the processes of cellular protection and repair. Ideal for heavily dehydrated and stressed skin, with loss of firmness and elasticity, it contains a true cocktail of active principles with thirst-quenching, anti-oxidant, anti-wrinkle and repairing properties that act against the signs of aging.

With Active Prebiotics, Grape Stem Cells, African Kigelia and Active Marine Extracts

### PROBIOTIC BB CREAM 6 IN 1

MOISTURIZING - MATTIFYING - PROTECTIVE - EQUALISING WITH SUNSCREEN

COD. 51193\_MEDIUM LIGHT ML 50  
COD. 51194\_MEDIUM ML 50  
COD. 51195\_GOLDEN ML 50

A colorful, soothing and multi-beneficial cosmetic that covers the face of an illuminating veil that enhances the radiance. The new BB Cream of Capri Beauty Line are formulated with active Prebiotics that soothe and calm the acneic and irritated skin as well as contrasting the signs of aging. In a single gesture they moisturize, protect, opacify, uniform and illuminate, naturally hiding the imperfections of the skin. Enriched with Coenzyme Q10 for an antioxidant action, and with Solar Filter, they are colored with mineral pigments and available in 3 different shades. Free from paraffins, petrolatum and parabens, they are suitable for all skin types, even for sensitive epidermis.

With Active Prebiotics, Coenzyme Q10, Shea Butter

### PROBIOTIC BODY CREAM

HYDRATING - ELASTICIZING - SILK EFFECT

COD. 51197\_ML 250

Probiotic body cream rich of natural factors that maintain and restore hydration, elasticity and skin tone, favoring an immediate sense of well-being and an incredible “silk effect”. With Sweet Almond Oil, Shea Butter and Wheat Germ Oil, in addition to a super-moisturizing and elasticizing action, it ensures a protective function, representing a further defense for the skin thanks to the prebiotics contained in it. It absorbs quickly, does not leave the skin greasy, but velvety and pleasantly scented.

With Active Prebiotics, Sweet Almond Oil, Shea Butter and Wheat Germ Oil

## WHY USE THE PRODUCTS OF THE PROBIOTIC COMPLEX LINE

- Prebiotics are a 100% natural ingredient that acts as a protective layer on the skin, blocking moisture for a more radiant, hydrated and balanced appearance.
- Prebiotics fight the attack of free radicals and bad bacteria. They also help reduce the appearance of redness and irritation and can help improve the brightness and tone of the skin.
- Just like the “Good Bacteria” help to calm the stomach, the Prebiotics are also clinically tested to help soothe stressed skin.
- Prebiotics help to protect the skin from environmental stressors and reduce the appearance of wrinkles.

## THE PRODUCTS OF THE PROBIOTIC COMPLEX LINE

- They act as a natural protective shield
- Soothe and calm the skin
- They improve the healthy appearance of the epidermis
- They contrast of the ‘aging signs

## ACTIVE PRINCIPLES

**PREBIOTICS:** (substances able to act as a nutritional source for good skin bacteria) obtained by fermenting oats through Lacto-bacilli bacteria.

GRAPE STEM CELLS

COENZYME Q10

NATURAL EXTRACT OF KIGELIA AFRICANA
