# REVOLUTION COLLAGEN KIT

THE LATEST FRONTIER OF ADVANCED AESTHETICS THAT CHANGES SHAPE WITH COLLAGEN

From today collagen has a new form! We hydrolyzed it, broke it into tiny filaments and reshaped it. The Revolution Collagen Kit is composed of a cloud of Collagen, called **COLLAGEN CLOUD**, similar to a cotton ball but formulated with Vitamins C and E, Silk Proteins, Hydrolyzed Collagen and Soya Proteins which, when applied to the face, expands thanks to the its reticular form and once dissolved has the ability to penetrate the dermis, stimulating the fibroblasts to produce collagen and elastin.

The treated part will immediately lift, appear more toned, clarified and hydrated! The pores will shrink with a benefit also for acne-prone skin and the pigmentation will be significantly reduced thanks to its strong lightening effect. An innovative system has also been introduced in the Kit to fill deep wrinkles and expression lines in a natural, visible and original way!

In fact, with the **DERMO ABSORBABLE FILLING THREADS** will literally fill the wrinkles with a biostimulating, lifting and filling action. Formulated with Hydrolyzed Collagen, Silk Proteins, Centella Asiatica and Oliopeptides -1 and -2, they must be positioned inside the wrinkle, dissolved and activated by the **ACTIVE COLLAGEN SOLUTION** and like real bricks they will fill the furrow of the wrinkle, wrinkle filling it from time to time. The Revolution Collagen Kit has been designed for exclusively professional use with the provision of two other complementary products: the **SUPER MOISTURIZING ACTIVE COLLAGEN CONCENTRATES** will serve to create the working base on which to apply the Collagen Cloud and the Reabsorbable Dermo Threads, while the **ACTIVE COLLAGEN SOLUTION** will activate the release of the active substances and thanks to the inclusion of Argireline®, a powerful Botox Like peptide, in the formula, it will contribute to the smoothing of the wrinkle with a lifting and tightening effect. To obtain a long-lasting result over time, in the first phase we recommend one treatment per week for 5 sessions to allow the collagen and other active ingredients to settle in the various levels of the epidermis; after this phase a monthly booster will be enough.

## COLLAGEN CLOUD

Hydrolyzed Collagen filaments, in cross-linked form, demo-absorbable

The modern alternative to needle-free lifting is presented by an innovative product, similar to a cotton ball, soft, fluffy and with a reticular shape, formulated with 100% natural Hydrolyzed Collagen, Vitamin C, Vitamin E, Soya and Silk Proteins. The Collagen Cloud stimulates the fibroblasts to produce new collagen and once expanded and spread on the face, it must be activated and dissolved by the **ACTIVE COLLAGEN SOLUTION** to gradually release a surplus of hydration, nourishment and active substances capable of plumping, lightening, toning and brighten the complexion.

It is very simple to apply and allows you to provide support and tone to the facial tissues with a plumping, brightening, super hydrating, illuminating and toning effect.

## DERMO ABSORBABLE THREADS FILLED WITH HYDROLYZED COLLAGEN

EACH PACK CONTAINS 12 THREADS

Not-invasive and completely painless, the **DERMO-ABSORBABLE THREADS FILLING WITH HYDROLYZED COLLAGEN** are a latest generation facial treatment, ideal for those who do not want to face the scalpel or the consequences of Botox. Their absorption not only gradually fills the wrinkle but also hyperstimulates the internal cells, keeping them young and making them work properly.

Thanks to the heat of the skin, their low molecular weight and the application of the **ACTIVE COLLAGEN SOLUTION**, they are able to penetrate inside the dermis and stimulate the fibroblasts and neo collagenesis which will bring relaxation and tissue tone.

## ACTIVE COLLAGEN CONCENTRATES SUPER MOISTURIZING

ML 10

To be applied and massaged on the face before the **COLLAGEN CLOUD** and the **DERMO-ABSORBABLE THREADS**, the **ACTIVE COLLAGEN CONCENTRATES** restore the structure of the epidermis and its hydrolipidic balance. Thanks to the effect of the hydrolyzed collagen fibres, they support the scaffolding of the skin tissue and stimulate the function of the fibroblasts. Hydration is then enhanced by the action of Natural Hydration Factor (NMF) and Allantoin for a deep and long-lasting effect.

## ACTIVE COLLAGEN SOLUTION

ML 20

Activating solution lifting effect with Argireline®, Hydrolyzed Collagen and Hyaluronic Acid

An activating and dissolving cosmetic formulation with Collagen, Hyaluronic Acid and Argireline®, the **ACTIVE COLLAGEN SOLUTION** represents a fundamental tool for obtaining concrete results in this specific treatment. It dissolves the **DERMO-ABSORBABLE THREADS** and the **COLLAGEN CLOUD** and, in addition to releasing plumping and super hydrating active ingredients, restores the optimal level of skin hydration and nourishes the skin deeply, having a powerful relaxing effect on wrinkles.

## 1. CLEANSING AND TONING

1. Remove make-up from the area around the eyes with a pad soaked in Eye Make-up Remover Gel. Thoroughly cleanse the face, neck and décolleté with the **FACIAL EXFOLIATING CLEANSING GEL WITH MANDELIC ACID** from the Mandelic Complex Line. Rinse off product residues with warm water. Tone with cotton pads soaked in **RENEWING ASTRINGENT FACIAL TONIC LOTION WITH MANDELIC ACID** from the Mandelic Complex line.

## 2. EXFOLIATION AND TONING

2. Pour approximately 10 ml into a bowl of **PRE PEELING** from the Mandelic Complex line. Using a small brush, spread it all over face, neck and décolleté. Massage with fingertips to promote absorption and leave on for 3 – 4 minutes. Rinse thoroughly with plenty of warm water. Tone with cotton pads soaked in **RENEWING ASTRINGENT FACIAL TONIC LOTION WITH MANDELIC ACID** from the Mandelic Complex line.

## 3. PREPARATION FOR 4. APPLICATION OF FILLING THREADS

- Apply a few drops of **ACTIVE COLLAGEN CONCENTRATE** all over the face and massage the product well into the wrinkles. With a white pencil, draw up the application diagram and draw the lines where **COLLAGEN-FILLING DERMO-ABSORBABLE THREADS** will be inserted (deep wrinkles and expression lines).

## 4. APPLICATION OF FILLING THREADS

Prepare tweezers and all the threads to be applied on a tray, cutting any that are too long. Before applying the thread, spread a few drops of **ACTIVE COLLAGEN CONCENTRATE** along the wrinkle section. Apply the **COLLAGEN-FILLING DERMO-ABSORBABLE THREAD** inside each wrinkle.

## 5. APPLICATION OF THE ACTIVE COLLAGEN SOLUTION

Apply the **ACTIVE COLLAGEN SOLUTION** to each thread, tap and massage lightly to loosen the thread, removing the residues of the threads remaining adhered to the fabric. Proceed with this method by applying the threads inside each wrinkle, first placing the **ACTIVE COLLAGEN CONCENTRATE**, then the **COLLAGEN-FILLING DERMO-ABSORBABLE THREAD**, and then the **ACTIVE COLLAGEN SOLUTION**.

## 6. PREPARATION FOR 7. APPLICATION COLLAGEN CLOUD

- Open the **COLLAGEN CLOUD** on the tray, divide it into two parts and spread it very well, widening the filaments of the wad as much as possible. To facilitate dissolution, apply a few drops of **ACTIVE COLLAGEN CONCENTRATE** on the areas to be treated.

## 7. APPLICATION COLLAGEN CLOUD

With the help of tweezers, apply the various parts of **COLLAGEN CLOUD** on the forehead, cheekbones and neck. Spread the **ACTIVE COLLAGEN SOLUTION** well with a brush and massage delicately to aid absorption.

## 8. COLLAGEN MASK FROM OVER BOOST LINE

Apply **COLLAGEN MASK FROM OVER BOOST LINE** all over face and leave to act for 10 minutes. After this time, remove the mask, massage the excess liquid. Conclude the treatment with the application of the **Plumping Lifting Effect Cream** from the **Infinity Perfect Lift** line and massage until completely absorbed.
