MANDELIC COMPLEX

SPECIALIST LINE
WITH MANDELIC ACID

MANDELIC COMPLEX

SPECIALIST LINE WITH MANDELIC ACID
LIGHTENING - EXFOLIATING - ANTI STAIN - ANTI WRINKLES -
STRETCH MARKS - ASTRINGENT – RENEWING

The Mandelic Complex Line allows the Professional Aesthetics sector to work on various skin imperfections using products and concentrations of acids that were previously exclusive to aesthetic medicine.

These innovative, safe, and effective formulations are well-tolerated by all skin types, particularly those with phototypes more prone to severe reactions.

The entire line is formulated with a high percentage of Mandelic Acid, an Alpha Hydroxy Acid with 8 carbon atoms, derived from the hydrolysis of an **extract of Bitter Almonds**. Among AHAs, it is by far the most tolerated, as it acts effectively without causing burning or redness and is non-photosensitizing, allowing for year-round use regardless of the client's phototype, due to the absence of the risk of hyperpigmentation.

Thanks to the Medical-Aesthetics formulation of the peels, with a 50% concentration of Mandelic Acid, the Mandelic Complex treatment manages to eliminate the superficial layers of the skin by breaking the bond of the epidermal cells in the stratum corneum, helping to fill in wrinkles and expression lines. Among its many benefits, Mandelic Acid **repairs aging skin, reduces stretch marks**, brightens the skin, evens out the complexion, and accelerates cellular turnover.

It possesses depigmenting and antibiotic properties, making it an excellent choice for treating non-cystic inflammatory acne. It exhibits **ASTRINGENT** properties as it interacts with certain proteins in the stratum corneum (keratins), causing changes in

tertiary structure and resulting in constriction of the same layer. This process prevents the formation and buildup of sebum, **making it sebum-regulating**.

In the treatment of cutaneous hyperpigmentation, due to its marked lightening effect, this line is extremely effective in correcting skin discolorations related to **photo-aging, melasma, chloasma, and freckles**.

Other acids present, such as Phytic Acid, Glycolic Acid, Pyruvic Acid, and Azelaic Acid, enhance the action of Mandelic Acid, making the Mandelic Complex treatment indispensable and highly effective for treating the most stubborn skin imperfections.

PROFESSIONAL FACE PRODUCTS

EXFOLIATING CLEANSING GEL with Mandelic Acid

COD. 54007_ML 400

Based on Mandelic Acid, this Gel cleanses the face in a targeted and effective way, eliminating impurities and traces of make-up for deep cleansing. It evens out the skin's pH while respecting its physiological balance and prepares the skin for the application of the peeling. Stimulates the exfoliation of the superficial epidermal layers thus promoting cell renewal. It is well tolerated by all skin types and can also be used in summer.

TONIC LOTION RENEWING - ASTRINGENT with Mandelic Acid

COD. 54008_ML 400

Alcohol-free Tonic Lotion that acts on the skin surface, purifying the skin and helping to restore and enhance surface cell turnover. It helps maintain an adequate degree of hydration, restoring the right balance to the acidity of the epidermis. Thanks to the presence of Mandelic Acid in the formula, it evens out the skin tone and reduces the appearance of hyperpigmentation.

MANDELIC STOP NEUTRALIZING PEELING

COD. 54001_ML 400

Sodium Bicarbonate-based Gel Solution is a necessary product during treatments with Mandelic Acid to neutralize its activity and slow its penetration. It favors the restoration of the Ph of the skin, leaving a pleasant sensation of freshness.

PRE PEELING MANDELIC

COD. 54002_ML 400

It acts as a chemical scrub by deeply cleansing the skin, removing dead cells, sebum and other residues. Prepares the skin for treatment with the products of the Mandelic Complex line.

ACTIVE PRINCIPLES: Mandelic Acid, Pyruvic Acid, Glycolic Acid and Lactic Acid

LIGHTENING PEELING ACNE AND WRINKLE Solution Mandelic Acid 50%

COD. 54003_ML 30

Peeling formulated with Mandelic Acid and Phytic Acid ideal for treating skin discoloration due to aging and photo-aging, acne, wrinkles, mixed and seborrheic skin. The product is not photo sensitizing, it can also be applied in the summer season, it does not cause burning or redness and is suitable for people with sensitive or irritated skin. Once applied, Mandelic Acid continues its action for 7 - 10 days, regenerating the skin with a light superficial exfoliation.

ACTIVE PRINCIPLES: Mandelic Acid and Phytic Acid

ANTISPOT EXFOLIATING PEELING Mandelic Acid Solution 50%

COD. 54004_ML 30

This Peeling is indicated in the treatment of post-inflammatory hyper pigmentation, such as melanin spots, acne scars, stretch marks, freckles, senile keratoses, melasma, chloasma, photo-aging dichromias, medium-depth, diffuse and accentuated wrinkles. Thanks to its formulation based on 50% Mandelic Acid, it is not aggressive, does not burn and can also be applied to sensitive, hyper reactive and couperose skin.

ACTIVE PRINCIPLES: Mandelic Acid, Azelaic Acid, Phytic Acid and Kojic Acid

MASK EXFOLIATING ANTISPOT with Mandelic and Azelaic Acid

COD. 54005_ML 250

Creamy and delicately scented mask, it represents a fundamental step in the Mandelic Complex treatment. It is suitable for treating melanin spots, acne, stretch marks, freckles, melasma, chloasma, photo aging dichromias and wrinkles. Returns brightness and elasticity to the face.

ACTIVE PRINCIPLES: Mandelic and Azelaic Acid

CREAM REBALANCING NEUTRALIZING + SUNSCREEN

COD. 54006_ML 250

Formulated with Phytic Acid, Beta-Glycyrrhetic Acid, Hyaluronic Acid, Panthenol, Collagen and Vitamin E, it neutralizes the action of peels, soothes and nourishes the treated part. Thanks to the presence of Anti-aging and Biorevitalizing Substances, this formulation optimizes and promotes the effects of the Chemical Peel, supplying the skin with essential nutrients and counteracting inflammation. It promotes the rebalancing of the physiological pH and has high hydrating, emollient and protective properties. Contains a Solar Filter.

ACTIVE PRINCIPLES: Phytic, Beta-Glycyrrhetic, Hyaluronic Acid, Collagen

PROFESSIONAL BODY PRODUCTS

The Laboratories of Capri Beauty Line, always innovators in the development of non-invasive and effective professional and home treatments, have created the new Mandelic Complex Body line, which, thanks to the production of tissue regeneration induced by chemical stimulation, is ideal for treating any skin type, providing brightness, **improving tone, and normalizing the skin complex**.

The products in the line aim to even out and reduce the skin's pH, making the skin surface more receptive to the penetration and absorption of subsequently applied active substances.

Tissue purification, detoxification, thinning of skin stretch marks, cellular regeneration are just some of the results that can be achieved with the use of this line.

Already from the first application, a real epidermal renewal is obtained, and the skin appears smoothed, even, and luminous. The use of this line promotes the penetration and effectiveness of all subsequent body treatments applied.

PRE PEELING BODY EXFOLIATING GEL LIGHTENING - RENEWING - DETOXIFYING With Fruit Alpha Hydroxy Acids and Mandelic Acid

COD. 54021_ML 400

The Pre Peeling Body Exfoliating Gel is formulated with Mandelic, Pyruvic, Glycolic and Lactic Acids to effectively remove the dead cells that cover the stratum corneum, exfoliating in depth and performing an anti-bacterial function. Frees pores from impurities and counteracts imperfections. It can be used on all skin types thanks to its dual function: preparing the skin to receive the active ingredients subsequently applied and detoxifying and purifying the skin with a cellular renewal that will continue in the following days.

ACTIVE PRINCIPLES: Fruit Alpha Hydroxy Acids and Mandelic Acid

BODY PEELING LIGHTENING - EXFOLIATING - STRETCH MARKS Professional Solution with Glycolic Acid, Mandelic Acid

COD. 54020_ML 50

Professional peeling based on Glycolic Acid, Mandelic Acid, Lactic Acid, and Phytic Acid, which eliminates the superficial corneous layers while stimulating both epidermal and dermal regeneration. In fact, the detachment of the horny lamellae stimulates the production of new epidermal material, improving dermal circulation and the consequent production of elastin and collagen.

Indispensable to lighten skin spots, stretch marks, scars and to give a more homogeneous and luminous complexion. The inclusion of Phosphatidylcholine in the formula makes the penetration of the product even more active and effective. It is not photosensitizing and can be used at all times of the year.

ACTIVE PRINCIPLES: Glycolic Acid, Mandelic Acid, Lactic Acid, Phosphatidylcholine and Phytic Acid

BODY MASSAGE CREAM EXFOLIATING - BRIGHTENING - RENEWING With Mandelic Acid and Phosphatidylcholine

COD. 54022_ML 500

Product for professional use only, formulated with mandelic acid and phosphatidylcholine, it can be used both for detoxifying, bio-stimulating and renewing massages, and as a final product to enhance the penetration of other active ingredients previously applied in the various body treatments. Mandelic Acid has the characteristic of carrying out cell regeneration while Phosphatidylcholine is an excellent carrier which allows for greater penetration of the other active ingredients as well as dissolving subcutaneous fat; in fact, being a natural emulsifier of fats, it is able to promote their elimination and conversion into energy. The Cream can also be used on the most sensitive subjects, it does not cause burning or redness and it is not photosensitizing.

ACTIVE PRINCIPLES: Mandelic Acid, Phosphatidylcholine

HOME CARE FACE PRODUCTS

CREMA NEUTRALIZZANTE RIEQUILIBRANTE

COD. 54014_ML 250

Characterized by high moisturizing, emollient and protective properties, it promotes the rebalancing of the physiological pH. Formulated with Phytic Acid and Beta-Glycyrhetic Acid, and the addition of basic nutrients, such as Hyaluronic Acid, Panthenol, Collagen, Vitamins E, it neutralizes the action of peeling, soothes and nourishes the treated area. Contains a Solar Filter.

ACTIVE PRINCIPLES: hytic, Beta-Glycyrhetic, Hyaluronic Acid, Collagen

LIGHTENING EXFOLIATING CREAM with Mandelic, Azelaic and Phytic Acids

COD. 54015_ML 50

Highly professional cosmetic is formulated with Mandelic, Azelaic, Citric and Phytic Acids, to ensure a gentle and persistent exfoliation over time. It is indicated for lightening photo-induced spots, melasma and chloasma, regenerating the skin thanks to daily exfoliation. It is not photo sensitizing and can also be used in the summer. The complexion of the skin appears uniform, the spots lightened and the face brighter and smoother. It contains a Solar Filter.

ACTIVE PRINCIPLES: Mandelic, Azelaic and Phytic Acids

CREAM SUPER MOISTURIZING with Mandelic Acid, Hyaluronic Acid, NMF

COD. 54017_ML 50

Particularly suitable for rehydration and for restoring the integrity of the skin, this soft and silky emulsion is able to hydrate and nourish for a long time and deeply, without preventing the natural transpiration of the skin. The product constitutes a complete regenerating treatment thanks to the presence in the formula of Mandelic Acid, Hyaluronic Acid and NMF, for a brighter and more relaxed skin, velvety and silky to the touch. Contains a solar filter.

ACTIVE PRINCIPLES: Mandelic Acid, Hyaluronic Acid, NMF

CREAM BIO-STIMULATING with Mandelic Acid, Glycolic Acid, Stem Cells Red Vine

COD. 54018_ML 50

Formulated with the most recent acquisitions in the field of bio-stimulation, it is an intensive treatment that compact and restructuring skin ensuring a balanced level of hydration, tone, radiance and vitality. With Mandelic Acid, Glycolic Acid and Stem Cells Red Vine, it stimulates skin regeneration and repair, protects from sun rays (UVA and UVB), which cause photo-induced aging and optimizes the natural cell renewal cycle. It contains a sunscreen.

ACTIVE PRINCIPLES: Mandelic Acid, Glycolic Acid, Stem Cells Red Vin

CREAM ANTI-WRINKLE with Mandelic Acid, Hylaronic Acid

COD. 54016_ML 50

Rich in active substances such as mandelic acid and hyaluronic acid, performs a specific action against dry skin, with wrinkles and dehydrated fighting immediately, at the first application, the signs of age. The mandelic acid is known for its antibacterial properties, smoothing and anti-aging, improving the quality of the skin with immediate visual effect. Hyaluronic acid helps to maintain the right level of hydration and firmness for a skin perfectly hydrated, youthful and glowing. It contains a sunscreen.

ACTIVE PRINCIPLES: Mandelic Acid, Hylaronic Acid

CREAM ANTI AGING with Mandelic Acid, Collagen, Cyclodextrins

COD. 54019_ML 50

Anti-aging cream, formulated to combat oxidative stress which is the main cause of skin aging and discoloration. It helps to restore the right degree of hydration, slowing down the action of free radicals thanks to the antioxidants present in the formula, thus delaying the appearance of the signs of aging. Ideal for improving skin firmness and reducing wrinkles. Contains a solar filter.

ACTIVE PRINCIPLES: Mandelic Acid, Collagen, Cyclodextrins

HOME CARE BODY PRODUCTS

BODY EXFOLIATING GEL LIGHTENING - RENEWING - DETOXIFYING Fruit Alpha Hydroxy Acids and Mandelic Acid

COD. 54025_ML 250

Innovative and highly functional product which, thanks to the presence of Fruit Alpha Hydroxy Acids in the formula, renews and oxygenates the skin through a deep enzymatic exfoliation, stimulates the microcirculation and the production of collagen. It is able to combine the exfoliating and detoxifying action with the lightening and illuminating one, eliminating impurities and dead cells from the skin surface leaving the skin smooth and velvety.

ACTIVE PRINCIPLES: Fruit Alpha Hydroxy Acids and Mandelic Acid

FACE PROFESSIONAL PROTOCOL

BIO-REGENERATING FACIAL TREATMENT FOR ALL SKIN TYPES (STRETCH MARKS – SCARS – SPOTS – SKIN THICKNESS):

ADVICE FOR YOUR CLIENT

Apply the Mandelic Complex Rebalancing Neutralizing Cream in the morning and the Mandelic Complex Exfoliating Cream in the evening. In combination with these, it is also recommended to use specific serums and active concentrates relating to the problems for which the Mandelic Acid treatment was carried out

1. EYE CLEANSING
Cleanse the periocular area with the EYE MAKEUP REMOVING GEL from the BASIC FACE LINE, applying the gel on a cotton pad or swab in gentle circular motions. Remove with lukewarm water or moistened cotton pads or a sponge.

2. FACE CLEANSING
Apply a small amount of EXFOLIATING CLEANSING GEL WITH MANDELIC ACID directly to the face, gently massaging in circular and upward motions, avoiding direct contact with the eyes. Remove with lukewarm water or a damp sponge.

3. RENEWING ASTRINGENT FACE TONIC LOTION
After cleansing with the Cleansing Gel, apply the Tonic Lotion to the face, neck, and décolleté with a cotton pad to remove any traces of impurities and restore the skin's natural pH. Massage lightly and pat to promote complete absorption.

4. PRE-PEELING
Pour the right amount of PRE-PEELING (about 5 ml) into a bowl and apply it to the face, neck, and décolleté with a brush. Pat with fingertips to promote absorption. Leave on for 3-4 minutes and rinse thoroughly with plenty of lukewarm water.

5. MANDELIC STOP
Apply a proper amount of MANDELIC STOP with a cotton pad and massage gently. Remove the product with water, dry the area, and tone with the RENEWING ASTRINGENT FACE TONER with Mandelic Acid.

6. LIGHTENING PEELING ACNE AND WRINKLE
Apply the LIGHTENING PEELING ACNE AND WRINKLE to the entire face, neck, and décolleté with a brush and massage to allow deep penetration of the product. (If you are not performing step 7, leave it on for 20 minutes. Rinse with lukewarm water and pat with MANDELIC STOP).

7. ANTISPOT EXFOLIATING PEELING
Apply the ANTISPOT EXFOLIATING PEELING to areas with hyperpigmentation, acne, deep wrinkles, and massage for a few minutes to ensure proper product penetration. Leave on for 20 minutes. Rinse with lukewarm water and pat with MANDELIC STOP.

8. MASK EXFOLIATING ANTISPOT WITH MANDELIC AND AZELAIC ACID
Apply a thin layer of MANDELIC MASK with a brush and leave on for 10-15 minutes. Rinse with MANDELIC STOP and lukewarm water. Tone with the 3) RENEWING ASTRINGENT FACE TONIC LOTION with Mandelic Acid.

9. SERUMS RIGENERA + NEUTRALIZING CREAM
If the treatment was done for ACNE, SPOTS, OR IMPURE SKIN, apply a few drops of VITALITY C from the RIGENERA line, pat and apply a generous layer of NEUTRALIZING CREAM, massaging until absorbed. If the treatment was done for DEEP or SUPERFICIAL WRINKLES, apply a few drops of AGE BACK TECHNOLOGY from the RIGENERA line, and finish the treatment by massaging with the NEUTRALIZING CREAM.

BODY PROFESSIONAL PROTOCOL

BIO-REGENERATING BODY TREATMENT FOR ALL SKIN TYPES (STRETCH MARKS, BLEMISHES, SCARS, BLACKHEADS, IMPURITIES):

1. PREPARATION
Prepare the bed with a disposable sheet.

2. PRE PEELING BODY EXFOLIATING GEL APPLICATION
Spread a generous amount of Pre Peeling Body Exfoliating Gel all over the body for a deep enzymatic exfoliation. Massage the product gently until absorbed.

3. BODY PEELING APPLICATION
After massaging the Pre-Peeling Gel for the Body, apply a few drops of Peeling to the targeted areas (spots, stretch marks, thickening of the skin, chloasma, melasma, impure skin, blackheads) and massage until completely absorbed.

4. COVER WITH DISPOSABLE SHEET
Cover with the disposable sheet and leave on for 10 minutes.

5. GENTLE MASSAGE + POSSIBLE APPLICATION OF ACTIVE CONCENTRATES
Lift the sheet and absorb the residue with a gentle massage. It is possible to enhance the treatment with active concentrates from the body line, depending on the desired effect.

6. MASSAGE WITH EXFOLIATING BODY MASSAGE CREAM
Apply a generous layer of Cream and proceed with the specific massage until absorbed.
