3D COFFEE SLIM

THREE-DIMENSIONAL REDUCING TREATMENT ON LEGS, ABDOMEN AND GLUTES

The reactivating, anti-inflammatory and draining power of coffee has given life to a new intensive treatment from the Capri Beauty Line that reshapes, redefines, reduces and stimulates microcirculation on Legs, Abdomen and Buttocks. A three-dimensional ritual that involves all the senses for an exclusive experience that, thanks to the refined textures, a synergy of innovative active ingredients and inebriating fragrances, will become one-of-a-kind beauty experience! It is a complete and tailor-made system where science and nature, research and development, blend together in unique and functional formulas that allow you to address the different problems of the body areas with effective solutions.

The 3D Coffee Slim Line is characterized by **Caffeine**, a substance renowned for its anti-inflammatory properties that affects fat reserves and facilitates the drainage of liquids and toxins, promoting lipolysis (splitting of fats) and reducing the appearance of cellulite. To enhance the effectiveness and performance of the 3D Coffee Slim treatment, **Escin Liposomes, Carnitine, Bromelain, Spirulina Algae and Phosphatidylcholine** have been included in the formulation of the products.

AN EFFECTIVE, NATURAL AND THREE-DIMENSIONAL BODY SYSTEM THAT WILL ACT ON THE DIFFERENT AREAS OF THE SILHOUETTE IN THIS WAY:

- **LEGS:** promotes lipolysis and reduces the appearance of cellulite. It also guarantees a fantastic feeling of lightness and well-being.
- **ABDOMEN:** Stimulates lymphatic circulation, promoting the elimination of toxins and excess liquids. Due to its lipolytic and reactivating properties it significantly reduces abdominal fat.
- **GLUTES:** Skin toning: thanks to the reactivating action, it smoothes the skin, improving its elasticity and firmness, lifts the skin tissue, eliminates excess fluids and reactivates local circulation.

The 3D Coffee Slim treatment is indicated for cellulite, localized fat, water retention, skin laxity, hypotonic skin and with irregular texture. It has no contraindications as it is free of Marine Algae, Paraffins, Parabens and Petrolatum.

ACTIVE INGREDIENTS

CAFFEINE

It has the ability to reduce and counteract fat deposits because it interferes with the activity of phosphodiesterase, an enzyme that is used by the body to prevent the degradation of fat cells. By inhibiting the work of phosphodiesterase, caffeine helps the body burn adipose tissue deposits and remove and dispose of fluids that stagnate between the tissues.

ESCIN LIPOSOMES

Escin liposomes have a vasotonic, vasoprotective, anti-inflammatory and anti-edema action; they reduce capillary permeability and improve lymphatic drainage. Escin also has an astringent action, activates cellular metabolism and has an emollient, nourishing and protective function on the skin.

CARNITINE

Defined as “the cross-cutting active ingredient par excellence” when it comes to “burning fat”, it stimulates cellular metabolism, helping to improve microcirculation and reduce water retention.

PHOSPHATIDYLCHOLINE

It is a phospholipid that has very strong reducing properties as it is able to solubilize the fat contained in the adipocytes, reducing the volume of the adipose tissue. Furthermore, thanks to the conveying properties of this molecule, it will allow for ultra-enhanced penetration of all the substances contained in the formula.

COFFEE SLIM SCRUB

Draining Scrub Gel - Exfoliating - Lipo Reducing With Escin, Bromelain and Coffee Microgranules

ML 500

It is able to offer a dual function in a single product: exfoliate and remove dead cells making the skin smooth and silky, and at the same time improve the appearance of the epidermis affected by cellulite and water retention. In fact, the Coffee Microgranules, in addition to exfoliating, help the body burn deposits of adipose tissue and remove the liquids that stagnate between the tissues. Furthermore, thanks to the addition of draining and detoxifying active ingredients, it allows you to reduce fluid retention, eliminate toxins, reactivate circulation and significantly limit the onset of cellulite.

COFFEE SLIM MOUSSE

3D Reducing Concentrated Booster With Caffeine, Phosphatidylcholine, Escin Liposomes, Bromelain and Carnitine

ML 150

An advanced lipolytic solution that works by breaking down adipose tissue, draining superficial fluids and reactivating local circulation. Its rapidly absorbed fluid texture allows for deep penetration and thanks to its active ingredients in high concentrations such as Caffeine, Phosphatidylcholine, Escin Liposomes, Bromelain and Carnitine, it promotes the destruction of fat cells selectively without risks to the body. The dissolved fat will be conveyed and disposed of naturally in the weeks following the treatments. Free from Marine Algae, Paraffins, Parabens and Petrolatum, it can also be used on the most sensitive subjects.

COFFEE SLIM MUD

Massageable Body Mud without Rinsing with Lipolytic Action With Clay, Caffeine, Phosphatidylcholine, Escin Liposomes, Bromelain and Carnitine

ML 500

A No-Rinse Mud with an extraordinary slimming and anti-edematous power that promotes an intensive action against the imperfections of cellulite and fat deposits. Formulated with Clay, Caffeine, Phosphatidylcholine, Escin Liposomes, Bromelain and Carnitine, it acts on cellulite tension by improving skin tone and trophism. Its innovative “no-rinse” formula allows it to penetrate into the deepest stages of the epidermis, guaranteeing top-level functionality and visible results in just a few sessions. Does not contain Marine Algae, Paraffins, Petrolatum and Parabens.

COFFEE SLIM CREAM

3D Draining-Reducing-Reactivating Massage Cream With Caffeine, Phosphatidylcholine, Escin Liposomes, Bromelain and Carnitine

ML 500

ML 250 (RESALE FORMAT)

Soft and scented, it allows a long-lasting massage and amplifies the draining, reducing and modeling activity of the other products in the 3D Coffee Slim Line. It has a particularly active function for the drainage and removal of stagnant liquids, fundamental properties for stimulating the mobilization of fatty acids in adipose tissue. It acts broadly against all stages of cellulite, leaves the skin smooth and velvety and can be applied to anyone as it is free of Marine Algae, Parabens, Petrolatum and Paraffins.

ADVICE FOR YOUR CUSTOMER

Every morning apply **3D Coffee Slim Cream** by a gentle massage. Once a week, during the shower, carry out a thorough exfoliation with the **Coffee Slim Scrub**.

- 1. PREPARATION**
Prepare the bed with a sheet of Plastic Foil.

- 2. APPLICATION OF EXENTIAL DROPS**
Apply the Exential Drops Draining Synergies on the lymph nodes (axillary, adrenal, groin, popliteal fossa and malleolus) and perform lymphatic emptying with pumping maneuvers.

- 3. COFFEE SLIM SCRUB**
Apply a generous amount of Coffee Slim Scrub to the affected areas and massage gently for a few minutes. Remove with a washcloth soaked in warm water.

- 4. COFFEE SLIM MOUSSE**
Dispense a few drops of product on the areas to be treated (Buttocks, Abdomen, Legs) and massage until completely absorbed.

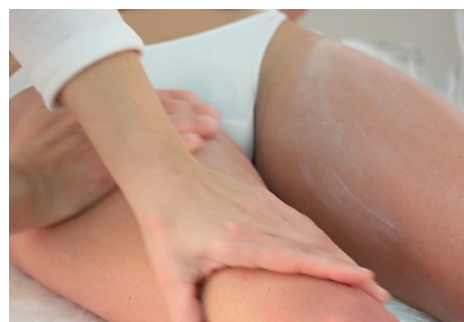

- 5. COFFEE SLIM MUD**
Spread a generous layer of Coffe Slim Mud.

- 6. PLASTIC FOIL**
Close with Plastic Foil for about 15/20 minutes.

- 7. MASSAGING GENTLY**
After this time, lift the Plastic Foil and let the residues of the Coffee Slim Mud absorb with a light massage.

- 8. COFFEE SLIM CREAM**
Apply the Coffee Slim Cream on all the areas previously treated, massaging with the specific technique.
