MANDELIC COMPLEX

BODY

SPECIALIST FACE AND BODY LINE BASED ON MANDELIC ACID

Mandelic Complex allows the Professional Aesthetics sector to work on multiple imperfections, with products and concentrations of Acids hitherto exclusive to aesthetic medicine. The entire line is formulated with a high percentage of Mandelic Acid, an Alpha Hydroxy acid derived from the hydrolysis of Bitter Almonds that acts effectively without causing burning or redness. It repairs aging skin, reduces blemishes, purifies, brightens and is a treatment of choice for non-inflamed acne. Since it is not photosensitizing, it can also be used in summer due to the absence of the risk of hyperpigmentation.

FACE-BODY REGENERATION SYSTEM WITH ACIDS AND EXOSOMES

Esoacid Complex is the new Capri Beauty Line face and body system that brings a new dimension of regenerative cosmetics to the world of professional aesthetics. An advanced system that integrates new generation acids and highly bioactive exosomes, where peels act on the skin surface, while exosomes guide deep regeneration, modulating the skin's biological responses and amplifying the effectiveness of each treatment. The heart of Esoacid Complex is balance. The Acids act in a targeted and calibrated way to renew, refine the skin texture, improve brightness, uniformity and texture, while the Plant Exosomes, derived from Centella Asiatica, work more deeply by supporting cell regeneration mechanisms, improving intercellular communication, enhancing skin response and making the skin more receptive, vital and reactive.

ESORADIANCE

Products for professional preparation and home self-care formulated with Acids and Exosomes. Designed to accompany every phase of the treatment, from preparation to final stabilization of the skin. BODY

CAPRI SUN-CARE

Capri Sun represents a complete protection system: it prepares, protects, intensifies and repairs before, during and after exposure, transforming the sun into a real beauty treatment. A professional line with functional ingredients to ensure safety, performance and skin comfort at every stage of tanning. Effective sunscreens, melanin activators, moisturizing complexes and soothing active ingredients that work synergistically to protect the skin, promote an even tan and preserve hydration, elasticity and radiance.

TAN INTENSIFIERS

Thanks to the presence of activators of melanin, beta-carotene and plant extracts, they stimulate the natural processes of skin pigmentation, contributing to the development of a golden and luminous complexion. Lightweight, fresh and fast-absorbing formulations, ideal for those who want to enhance and intensify their tan while keeping their skin soft, supple and visibly brighter.

SUNSCREEN

A line of "smart" sunscreens, designed to protect the skin, helping to prevent sunburn, dehydration and photoaging. Light and enveloping textures, with a fresh and harmonious fragrance, easy to apply thanks to the special delivery system, for a perfect and safe tan, at any latitude and at any time of the year.

HAIR

Designed to protect the hair from the stress of the sun, wind, salt and chlorine, this lightweight oil creates a protective shield that helps preserve the softness, shine and vitality of the hair fiber. Contrast the dryness and fragility of the hair, keeping it silky, disciplined and shiny.

AFTERSUN

Formulated to refresh, nourish and help the skin regain balance and comfort, thanks to ingredients Soothing and restorative, they help to reduce redness and feelings of heat, promoting natural skin restoration. The skin immediately appears softer, hydrated, elastic and radiant, for a more even and long-lasting tan.
